

Lyman Media Separator

Assembly Instructions

- Remove all enclosed pieces from box. Two orange and two black a total of four in all.
- Place orange base bucket (round flat bottom piece) on a flat hard surface, take orange lid and snap together hinges.
- Place both black separating baskets on flat hard surface and snap together hinges. Your assembly is complete.

Use Instructions

- Pour contents of tumbler into black separating basket, then secure lid on black separating basket.
- Secure lid on orange cover and rotate handles to start the separation process.
- Rotate black separating basket until all media has been removed from the brass cases.

Note: Rotating time will vary depending on the amount of media and cases placed in Lyman Media Separator.
