INCLUDED ACCESSORIES

- Rubber lens cap
- Adjustment tools
- Battery
- Limited Lifetime Warranty

The Sightmark[®] series of reflex sights are designed to create a lightweight, yet accurate, sight. Sightmark reflex sights are able to handle heavy recoil, will stay zeroed in longer than competitor's reflex sights and are perfect for shotguns, pistols and rifles. The Sure Shot™ reflex sight, featuring a large viewing area and a choice of four different illuminated reticle types, is useful for most any application from close quarter combat situations to hunting. To create the ultimate weapon, mount the Sure Shot alongside a riflescope in order to quickly acquire targets at close distances and take long shots with the riflescope. This sight is available in a matte black or camouflage finish.
