The Sightmark<sup>®</sup> 4x32 Tactical riflescope uses cutting edge glass and lens coatings to ensure that it is the most accurate tactical instrument on the market. Precision multicoated optics are the distinguishing feature of the Sightmark tactical riflescope line; multicoated lenses offer the clearest view for easy target acquisition in both bright and low light situations. Both waterproof and fog proof, the nitrogen filled Sightmark 4x32 Tactical features windage and elevation adjustment caps for a sleek, streamlined look to the scope after corrections have been made.
