# SIGHTMARK<sup>®</sup> AAT5G GREEN LASER DESIGNATOR

The **Sightmark<sup>®</sup> AAT5G Green Laser Designator** is an advanced, supremely accurate and powerful tactical laser red dot sight with easy base x/y windage and elevation adjustment. This unique sight has incredible visibility range, up to 50yd in daylight and 2640yd at night, but uses very little power in its operation. The quick target acquisition and precision accuracy of this advanced laser designator makes it perfect for rapid fire or moving targets, and the built-in Weaver mount ensures the unit can fit onto the widest variety of weapons. Among its list of features, the Sightmark AAT5G is lightweight, compact and shockproof, and is covered by Sightmark's Limited Lifetime Warranty.
