Q5 TRIPLE DUTY CREE[®] LED TACTICAL FLASHLIGHT KIT

The **Sightmark Q5 Triple Duty Cree[®] LED** tactical flashlight's high intensity 280 lumen Cree[®] LED light beam illuminates the darkness with a powerful, concentrated shaft of light precise enough to assist you with the most difficult shots in the most precarious situations. The Q5 Triple Duty's aircraft grade aluminum construction and type II mil-spec anodizing make this tool both incredibly durable and corrosion resistant; it takes wear and tear like a seasoned veteran. Its recoil resistance is the true test of its resilience and the 3-prong glassbreaking head ring and tail cap show the Q5's readiness to be in the thick of action. Along with the included offset weapons mount and tactical pressure pad, this flashlight is a truly versatile instrument that should be added to every well-stocked arsenal. The Q5 Triple Duty is backed by Sightmark's exclusive warranty.
