## FRONTIER™ SERIES

The **Yukon Frontier™** series of compact binoculars takes incredible BaK-4 prisms and Yukon's True Color™ lens coatings and transforms them into a phenomenally performing optic. These incredible binoculars provide maximum light transmission and optimal brightness, and let any outdoorsman or sports aficionado explore and enjoy their surroundings to the fullest extent. From early dawn to late dusk, the optimum color fidelity and clarity of image enhance any viewing experience, while a generously long eye relief reduces potential eye strain. Every Frontier binocular boasts a rugged, yet lightweight, rubber armored body that is nitrogen filled for the highest level of waterproofing and fog proofing possible. The Frontier™ series is taking the "Frontier of Optics"™ to a whole new level.

### INCLUDED ACCESSORIES
