Diopter adjustment	(dptr)	+5,-5
Tripod socket	(in)	1/4
Dimensions	(in)	9.1-14.6x2.8x2.8
Weight	(oz)	15.9

The **Scout™ 20x50** is a modern, high magnification draw-tube spotting scope. Lightweight, compact and protected by Rubber Armor, the Scout's collapsible body makes it easily portable for any number of situations or uses, such as traveling. One of the scope's most distinctive features is its large 50mm objective lens whose considerable surface area provides immense light transmission which produces high resolution in a variety of lighting conditions; this is further enhanced by the fully multi-coated optics that are covered in Yukon's special multi-layered magnesium fluoride coating. The Scout's 12mm eye relief provides comfortable viewing and the 54 yard field of view allows for incredible observation possibilities. The Scout 20x50 is backed by Yukon's Limited Lifetime Warranty.

INCLUDED ACCESSORIES
