

TRACKER™ 1x24 GOGGLE

The **Tracker™ 1x24 NV Goggles** are a night vision binocular that allows for incredibly detailed observation ability under the darkness of night that includes a head gear accessory for a flip-up, adjustable and hands-free unit. The Tracker 1x24 provides clear viewing in total darkness by utilizing a built-in IR infrared illuminator; when in use the illuminator emits a pulsing frequency that is so energy efficient it creates less battery drainage and prolongs battery life. The ergonomically designed rubberized body is surprisingly lightweight and can be taken on long expeditions both easily and comfortably, and is great for prolonged use with the head gear accessory. The Tracker utilizes the revolutionary Eclipse™ Lens Cover System which uses flip-up covers that can be easily clipped back against the body of the binoculars and rotated out of the user's viewing area while eliminating lens cap hassles. Pin holes in the lens caps allow the Tracker to be used in the daytime when the caps are closed. Also featured is a dual diopter adjustment with central focusing knob and fully multicoated optics. The Tracker 1x24 NV Goggles are backed by Yukon's Limited Lifetime Warranty.

SPECIFICATIONS

Generation		1
Magnification	(x)	1
Lens diameter	(mm)	24
Field of view	(°)	30
Resolution, typical	(lp/mm)	32-36
Focus range	(yd)	1 to ∞
Eye relief	(mm)	12
Diopter adjustment	(dptr)	+5,-5
Detection distance, approx.	(yd)	up to 160
IR illuminator effective distance	(yd)	up to 150
Power supply; battery type		CR-123
feed voltage	(V)	3
Estimated power life, w/out IR (hour)		up to 20
Operating temperature	(°F)	-22 to +104
Dimensions	(in)	6.9x4.8x2.8
Weight	(oz)	21.2

FEATURES

- Tracker binocular with hands-free goggle head gear
- Built-in powerful PULSE™ IR
- Multicoated optics
- High resolution intensifiers
- Modern ergonomic design
- Rubber armor protection
- Water and fog resistant

INCLUDED ACCESSORIES

- Head gear
- Protective carrying case
- Neck strap
